## Product Announcement Information Sheet

Product Name	Bluetooth® Calculator Keypad
Model Number	VP6275
Part Number	KUX0102-1008F
UPC Code for Single Retail Package	 7 115262 06275 17
Dimensions/Weight per Single Retail Package	5.8 x 7.9 x 2.2 inch; 9.9 oz (147.7*200*55mm ; 280 g)
UPC Code for Master Carton	 1 07 15262 06275 4
Dimensions/Weight per Master Carton	14.3 x 8.5 x 6.7 inch; 4.4 lb (362*215*170mm; 1.98 kg)
Quantities per Master Carton	6 Units per Master Carton
Suggested Retail Price	US\$59.99
Availability	August, 2016

## **Product Descriptions**

### **Short Description – 25 Words**

- The Bluetooth® Calculator Keypad provides Bluetooth-enabled computers with a dedicated numeric keypad and calculator.

### **Standard Description – 50 Words**

- The Bluetooth® Calculator Keypad, which aesthetically matches the look and feel of Apple products, is designed for use with any OS X or Windows®- based computer to provide dedicated numeric keypad and calculator functionality.

### **Long Description – 100 Words**

- The Bluetooth® Calculator Keypad aesthetically matches the look and feel of Apple products.  
The Bluetooth® Calculator Keypad is designed for use with any Bluetooth-enabled computer to provide a dedicated numeric keypad and stand-alone calculator.
- The Bluetooth® Calculator Keypad is an ideal peripheral for Apple computers supplied with Apple's reduced-size keyboard, as well as for MacBook and PC-based laptop systems.
- The The Bluetooth® Calculator Keypad enables extended data entry for spreadsheets, accounting programs and other data-intensive applications. In addition, it provides a stand-alone calculator which uploads results to open spreadsheets and Web applications with the press of a button.

## **Features & Benefits**

### **Seamlessly Connected to Laptop Computer**

- Connecting via Bluetooth wireless technology, the Bluetooth® Calculator Keypad is the ideal addition for laptop users involved in extensive numeric data entry.
- When traveling with notebook computers, simply use it as a compact, portable, stand-alone Bluetooth keypad with calculator functions.

### **Built-in Fully Functional Calculator**

- The embedded off-line calculator function means one less device to clutter the desktop and less weight in your computer carrying case.
- The built-in 12 digit LCD display provides visualization for the calculation functions.
- The one-touch SEND key ensures the calculated result is correctly transcribed to the spreadsheet without having to rekey-in the numbers, therefore eliminating potential data entry errors.

### **The Most User-friendly 10-key Calculator Keypad Available Today**

- Unlike the traditional keypads with confusing NumLock key and second layer of command keys, the Bluetooth® Calculator Keypad provides unique straight forward numeric data entry without complicating the applications with NumLock functions.
- Users for the other calculator keypads have to remember toggling between “NumLock On” and “NumLock Off” all the while trying to maintain “NumLock Off” on their notebook computer’s keyboard. The VP6275 Bluetooth® Calculator Keypad always works in numeric mode so that the notebook computer can stay in Alphabet mode.
- Effective power management features:
  - On/off switch prevents power-loss when traveling.
  - Sleep mode with one-touch wake-up feature to preserve battery power.
  - Power-low LED indicator light alerts you when to replace batteries.

### **Fully Compatible with Mac and Windows OS**

- With the ease of a touch, a built-in OS selector switch allows user to select, and switch, between Mac and Windows Modes.
- No need to install drivers, the Bluetooth® Calculator Keypad is the only numeric keypad that’s 100% compatible with both Mac and Windows OS, thus allowing Mac users to switch between the 2 operating systems without losing any functions.

### **Built-in Bluetooth Technology for the Ultimate Wireless Experience**

- Featuring Bluetooth Class 2 for up to 33-foot / 10-meter of wireless data transmission range.
- Simple process to connect to the Bluetooth host computer; no need to install software. Once connection is established, it stays connected to the host even after power-off.
- The Bluetooth® Calculator Keypad is one of the most practical accessories for the Apple Wireless Keyboard on the desktop and MacBook and other notebook computers on the go. As the Apple Wireless Keyboard and the majority of notebooks do not offer a ten-key, numeric data entry becomes a challenge, especially for finance and accounting professionals. The Bluetooth® Calculator Keypad not only provides an effortless way to enter numbers, it also replaces the traditional calculator so that only one device is needed. As such, it’s a truly versatile companion for the Apple Wireless Keyboard and MacBook computers as well as Windows-based laptop PCs.

## **Specifications**

### **Product Specifications**

- Broadcom Bluetooth v3.0 with EDR (Enhanced Data Rate)
- Supports up to 33 feet/10 meters operating range
- Computer numeric keypad with built-in calculator function and 12-digit LCD display

- 18 keypad & calculator keys:
  - Numeric keys: 0, 1, 2, 3, 4, 5, 6, 7, 8, 9
  - Arithmetic Operators: “+”, “-”, “\*”, “/”
  - Operation keys: Wake/CE/AC, Back Space, Enter, “.”
- 2 hot keys:
